# DEVELOPING A COMPREHENSIVE RETENTION PLAN

October 16 - 18, 2017

Develop a comprehensive retention plan tailored to your unique institutional context.

# **OVERVIEW**

This conference will help you develop a campus-wide retention plan that ties mission, data, and programming together in a unified approach. Whether you have a retention plan already in place or are just getting started, you will leave this event with an outlined plan built from the practical tips and small-group coaching from our expert instructors.

You will leave this conference better able to approach retention in a holistic manner by:

- → Beginning before students arrive on campus
- Tying your retention data, programming, and goals together
- Auditing the existing programs you have, and determining what is working and what can be improved
- Prioritizing which retention programs to cut and which to keep

# SMALL GROUP COACHING SESSIONS

As part of this conference, you will have the opportunity to participate in a group coaching session with peers and an expert faculty member from like institutions. You will discuss your current retention plans, initiatives, and challenges to building a comprehensive approach.

# PRE-CONFERENCE WORKSHOP: DATA FOR RETENTION AND STUDENT SUCCESS PROFESSIONALS

This workshop is designed for non-IR professionals who want to learn techniques for asking research questions, collecting and analyzing data, and explaining and using the results.

# Pre-Conference Workshop—Data Simplified: Working with Institutional Data for Retention Purposes

8:30 - 9:00 a.m.

Continental Breakfast (included in workshop registration fee) and Registration for Pre-Conference Workshop Attendees

9:00 a.m. - 12:00 p.m.

## Pre-Conference Workshop—Data Simplified: Working with Institutional Data for Retention Purposes

Institutional research data is a powerful tool for understanding attrition, planning programs, and predicting enrollment. Student affairs and enrollment professionals are often "afraid" of data and struggle with understanding the information, using it effectively, and working with IR departments to ask the right questions.

This workshop is designed for non-IR professionals who want to learn the basics of data analysis and are seeking ways to manage, extract, and explain results to campus leaders. You will learn techniques for:

- → Defining factors associated with retention
- → Recognizing patterns and correlations
- → Communicating with IR teams to effectively mine data

12:00 - 1:00 p.m.

Lunch for Pre-Conference Attendees (included in workshop registration fee)

12:30 - 1:00 p.m.

**Main Conference Registration** 

1:00 - 2:00 p.m.

## Introductions and Setting the Stage for Retention: Defining a Comprehensive Approach

This opening session will help you understand core components of a comprehensive approach to retention planning: data, programming, assessment, and buy-in. Faculty will share the steps they took at their campuses to embrace a comprehensive approach to retention.

2:00 - 3:00 p.m.

## Start at the Beginning: The Role of Admissions in the Comprehensive Plan

Effective retention programming begins before freshman year. You need to understand the profile of the entering class before you create programming. During this session, you will review the admissions application data that is important to retention programming, including: demographics, academic preparation, financial aid eligibility, and other indicators of student success.

3:00 - 3:15 p.m.

#### **Afternoon Break**

3:15 - 4:15 p.m.

## **Data, Programming, and Goal Setting**

Professionals charged with improving retention rates know that data is important; however, they often need guidance to understand patterns, tie data to programming goals, and set realistic goals for improvement. This session will help you understand what your data says about your institutional priorities and how you can begin the planning process and involve other stakeholders. You will review several case studies that provide examples of how to get started in isolating your institutional data patterns and begin the goal-setting process for optimal results.

Continental Breakfast (included in registration fee)

9:00 - 10:45 a.m.

## **Turning Data into Programs**

Now that you understand your retention patterns, your current programs, and your goals for improvement, you must begin selecting programming options that will serve your comprehensive plan. During this session, faculty will share examples of new programs they implemented based on their data analysis. You will then work to design retention programs that meet your unique institutional retention goals.

10:45 - 11:00 a.m.

## **Morning Break**

11:00 a.m. - 12:15 p.m.

## **Self-Audit of Programs**

This session will help you understand which programs you already have in place, which ones are working effectively, and which ones could be improved. You will begin working on a retention road map for your institution and will identify retention priorities based on enrollment goals, student data, attrition factors, and institutional resources.

12:15 - 1:30 p.m.

## Lunch (included in registration fee)

1:30 - 2:30 p.m.

## Resource, Outsource, and Budgetary Considerations

Not all institutions have the resources needed to impact specific retention rates. This session will feature a discussion of no-cost and low-cost strategies you can use to assist with assessment and programming efforts, as well as how best to make the case for additional resources you need.

2:30 - 4:00 p.m.

## Working Session: Crafting Your Plan (includes break)

During this session, you will begin to work with your teams to craft an initial comprehensive retention plan. You will receive guided feedback from faculty on the feasibility of your planning models.

10:30 - 10:45 a.m.

**Morning Break** 

10:45 - 11:45 a.m.

## **Setting the Stage for Retention**
