

ENROLLMENT MANAGEMENT ESSENTIALS FOR ACADEMIC LEADERS

May 30 - 31, 2019 | Boston, MA

Empower and equip your academic leaders to meaningfully impact your institution's enrollment goals.

OVERVIEW

Increasingly, institutions are looking to deans, provosts, and program directors to be more engaged in and take more responsibility for enrollment planning and outcomes. As state appropriations continue to shrink, and the enrollment market becomes more compressed, this call to action for stronger partners within academic leadership will continue to grow.

In reality, these academic leaders already juggle numerous academic, administrative, and research related responsibilities, so adding yet another priority to this list can be a challenging undertaking.

To efficiently bring academic leadership up to speed, we have designed a comprehensive learning experience that focuses on cementing a firm understanding of core enrollment management concepts and practices.

You will leave this conference with a practical workbook and the confidence that you are better prepared to positively impact enrollment at your institution.

POST-CONFERENCE WORKSHOP: MARKETING FOR ACADEMIC LEADERS

Strong marketing is more critical than ever before in today's ultra-competitive higher education landscape – and academic involvement can elevate a marketing plan from good to great. During this time, you will be equipped with the knowledge and tools that will allow you to:

- Effectively reach students via website, email, and social media strategy
- Better align your messaging with your brand

Hands-on activity time will be designed to strengthen your understanding of your own institutional market position and distinction through both quantitative and qualitative means. You are invited to bring your own enrollment data to work with, along with any print collateral you would like to have reviewed by your peers.
