

You Acted, We Answered: Moving Instruction Online

Higher education is responding to the spread of COVID-19 by moving classes online. Between training your faculty, putting the right infrastructure in place, and figuring out how to support students properly online, we know this isn't a straightforward process. So, we've pulled together a host of resources to help you get it done. Get access to dozens of short lessons, webcasts, articles, and downloadable tools that you can use to train your faculty directly and expedite decision-making and support for online education on the administrative side.
